My career in mortgage lending was a natural progression after several years of working in investment portfolio analysis and insurance planning. I enjoy putting together deals and finding ways to help members grow financially. I enjoy assisting our members with each specific need and guiding them through the process of home ownership or refinance. I take pride in knowing that I help our members achieve goals that will keep them on the right track for long term financial success.

I want each member to feel confident that our highly knowledgeable team is with them during each step of the process. We have the right team in place to serve our members from start to finish.

In my free time, you will find me with my wife, Andrea and dog, Huey. We are outdoor enthusiasts and enjoy the fantastic outdoor spaces Richmond has to offer.

Jordan

Buying a home is easy and affordable at Virginia Credit Union. You'll feel comfortable asking questions and getting the information you need.

Your home for mortgage loans

You have access to a variety of mortgage services and resources to meet your needs. You can also attend seminars for first-time home buyers.

- Mortgages for primary residences, second homes, investment properties and land in Virginia
- Purchases and refinances
- Fixed rate loans with flexible terms
- Adjustable rate loans—for home and land purchases
- Low down payment options for purchases

Get pre-qualified

Know in advance the monthly payments and the loan amount for which you qualify. Once pre-qualified, you can request a pre-qualification letter to present to your realtor or a seller.

To get started, visit our website, stop by a branch or give us a phone call.

Refinancing

Taking advantage of lower rates and refinancing your current mortgage could offer you financial benefits. To determine if it makes sense to refinance, visit our website or contact a mortgage loan consultant.
